Two persons were killed when this 1957 sedan crashed into the side of a semi-trailer early Saturday morning on SR 15 (North Main St.) at Airport Road. Investigators reasoned that the auto was traveling more than 75 miles-per-hour at the time of the crash. The accident missed the city limits by a few feet. Highway Patrolmen, Deputy Sheriff, Constables and city police were at the scene.

Airport Road Crash Claims Two Lives

Two persons were killed and one injured early Saturday morning in the collision of a sedan-trailer and an automobile at the intersection of SR 15 and Airport Road just bare-

After Tragedy—Then Action

County workers moved quickly at the instruction of the county commission and repaired the traffic blinker at Airport Road and North Main St. (SR 15) after it had not worked for several weeks.

There is still no word on when the county will remove additional trees on both sides of SR 15 in that area to provide greater visibility to motorists. Two accidents in the past month at that corner have prompted Belle Glade Chamber of Commerce directors to authorize a continued effort.

The chamber is hoping to get a traffic light there or additional warning signs for motorists. It also announced that the chamber had been told that the huge mound of dirt on the northwest corner of that intersection was being moved.

The traffic blinker's failure, and the mound of dirt were partially blamed for the latest accident early Saturday morning in which two persons were killed.

Although the car was traveling at too great a speed, and although charges of drinking were leveled in the incident, some quarters felt that the mound of dirt contributed to a poor visibility situation on the part of the truck driver.

After the accidents, something is being done. While our community appreciates the efforts of city and county to remedy this corner's traffic hazards, some folks have said that the action was a trifle late in coming, especially when the officials responsible knew about the hazards at least a month ago.

Termed Most Successful

Belle Glade PTA Carnival Enjoyed By Multitude

Workers Praised For Planning And Other Efforts

First estimates of the Belle Glade school PTA Carnival Oct. 31 said this year's affair was the most successful, and so it appeared as a multitude of youngsters and grown-ups milled for more than two hours on the high school athletic field participating in the general carnival spirit of the occasion.

Net proceeds have not yet been announced; however, it was understood that the proceeds were heavy, and that both tickets and donations exceeded original estimates by the planners of the carnival.

Urban Felling, principal chairman of the planning committee, expressed a desire to extend the PTA's thanks to everyone from merchants who donated to the event to the host of volunteers.

Disaster Meeting

At Armory Tonight

Disaster techniques will be discussed at a meeting of all volunteers on the Glades Disaster Committee. The meeting will include committees from Belle Glade, Pahokee, and South Bay and it has been termed of the utmost importance in helping to coordinate the county disaster program.

Highlights of the program include (1) Plans and discussions. Col. Bill Altman will talk about hurricane hazards. Registered nurses and other officials of the County ABC will present information of interest to shelter and community workers.

The meeting will be held tonight at 8 p. m. at Belle Glade National Guard Armory.

Rainfall Above Average

Rainfall for the month of October, as reported by Everglades Experiment Station was 8.35 inches, or 4.24 inches above normal.

"Wettest" October on record was in 1924 when 15.84 inches fell. Driest month of October on record was 1925 with .49 inches.

Action Stressed

Merchants' Division Of Chamber Sets Sites For Civic Betterment

Belle Glade merchants move a step forward Monday night to form a powerful merchant's division of the Belle Glade Chamber of Commerce, and it is reported that feeling is running high, among those already participating, that the organization will continue to be active.

Henceforth, the merchant's division has been activated only at specific times, particularly at Christmas time, for the purpose of resolving singular but mutual problems.

According to Vernon Dexter, vice chairman of the group, and chamber director-member of the division, two committees will be functioning now, a Christmas committee and an action committee. The latter group is expected to put teeth into the organization by becoming vitally interested in civic and municipal improvement.

Planned Action Under the direction of Jack Kaufman, permanent chairman of the division, the merchants will notify the city by letter that they want official recognition, and that they will petition from time to time for specific requests including the inspection of public records, recommended improvements and direct action.

Pool Is Closed

As City Looks For New Operator

Belle Glade Municipal Swimming Pool remained closed last week in the face of the resignation of the pool operator, Tom Stewart, according to City Manager C. B. Talmadge, who had asked for Stewart's resignation.

Although Lake Shore Pool is still operating, Talmadge said the other city pool would remain closed until an operator is obtained due to state health laws which require qualified persons to operate the pools.

Stewart's resignation was received after Talmadge officially notified Stewart of his dismissal. Stewart's letter said in part:

"On behalf of my family and myself, I wish to thank you and the members of the city commission for the pleasant association that we have enjoyed as members of your organization."

"It is with deep personal regret that I hereby submit my resignation, but because of other opportunities, I feel that it is to the best interests of my family."

683 Head Sold

At Monday Sale

Monday's Glades Livestock Market sold 683 cattle which grossed \$72,837.05, the largest sale since Oct. 5, according to the weekly market bulletin.

Compared to the previous week, all slaughter classes sold mostly steady. Stocker class was about steady with the best grades of stocker calves 30 cents to \$1.50 stronger.

Fifty-two percent of the offering went to slaughter.

Slaughter Prices

Steers: 10.00-24.25; heifers: 14.25-20.50; calves: 10.00-22.75; cows: 11.50-19.75; bulls: 15.50-22.00.

Stock Prices

Steers: 10.00-22.55; heifers: 15.00-18.50; calves: 13.00-24.25; cows: 11.25-17.00; bulls: 8.00-18.50; dairy calves: 11.00-19.25.

Lions Club Barbecue At BGHS Cafeteria Nov. 14

Belle Glade Lions will stage their big community barbecue Nov. 14 at Belle Glade High School cafeteria beginning at 5 p. m. Free delivery at your home is available to those who can't get to the school. Dinner \$1.25 and 75¢ entree.

Free delivery of the chicken barbecue dinner will be made to those customers calling between 5 and 6 p. m. Call WY 6-5459. No need for ladies to cook dinner that night, the Lions say. Come out and enjoy the barbecue.

Last Wednesday's program featured the city's golf pro, Roy Kimberly, in a demonstration of golf shots and techniques.

Junior Cattlemen

Meet November 10

There will be a regular meeting of the recently-formed Junior Cattleman's Assn., Tuesday, Nov. 10 at 7:30 p. m. at Glades Office Building where members will hear a program with James M. Herring, of Herring Ranch, Belle Glade, discuss fattening cattle for show and sale.

Club membership is open to all Future Farmers of America and 4-H Club members, other youngsters who are interested in raising dairy or beef cattle in the Glades area.

Dr. Herbert Chapman, Everglades Experiment Station, will also be present to discuss feeding calves on pasture. For further information about the club, contact Harold Brough, adult supervisor of the association, at Sawyer Ranch, or to Mr. Kent Brice, assistant county agricultural agent, who made the announcement.

Rams Post Win;

Drop Okeechobee

18-7 Monday Night

Belle Glade's Golden Rams are holding their heads slightly higher this week after subduing the Okeechobee offense Monday night 18-7 and making their season record 2-5.

That's not much consolation as the Rams' defense played poorly in the second half, allowing the Okeechobee offense to score three touchdowns.

Woody Storey dashed off a tackle for six yards at the tail end of a 65-yard drive in the first quarter for the only Brahman yard.

Permit Values

Show Big Drop

For Last Month

Construction values at Belle Glade dipped sharply in October, compared to the previous month, and the figures represent a decrease over the same period a year ago, according to Building Inspector W. L. Cunningham's monthly report.

The greatest single factor in the drop was the sewerage permits of October 1955 which amounted to \$600,504 in valuation.

Although building during 1955 has been at an accelerated pace, it could not overcome the \$5 million dollar permit.

Excluding the sewerage permits, valuations for 1955 reflect a gain of \$333,088 in values over the same period in 1954.

Total values for the first ten months of 1955 are \$1,809,925 compared to \$2,127,341 for the same period in 1954, a decrease of \$271,416.

Total permits for October totaled \$76,775, a decrease of \$168,300 from September.

October Permits

New home valuation in October was \$28,000 for three permits. There was one \$26,000 business permit; \$7,500 worth of addition permits; \$225 for one repair permit; \$1,600 for seven sewer connections and \$7,200 for four plumbing or electrical permits. Twenty permits issued for the month required fees of \$259.50.

Tie At Immokalee

Belle Glade High School's "B" football team remained undefeated and tied another tie to their season record Oct. 31 when they kept pace with the Immokalee High School varsity squad when their own varsity squad won their first year of competition.

The 12-12 deadlock could have been a win for Belle Glade, however, a penalty nullified an extra point which would have made the difference.

Coach Luke Thornton said Immokalee scored on a kick-off rumbled 75 yards later in the first quarter Johnny Hawk ran 25 yards on a keeper for a touchdown.

In the second stanza Bear flipped a 12-yard pass to Robert Chancy for the other six points. Later in the same period Immokalee scored on a 70-yard run.

Everglades Federal Sets New 4 1-4 Percent Rate

Everglades Federal Savings & Loan Association has declared a four and one-fourth percent per year dividend rate Oct. 28, 1955 payable on all savings accounts Dec. 31, 1955, according to Executive Vice President Richard A. Poston.

The one-fourth percent boost in the dividend rate makes this Glades institution reportedly the only federally chartered and insured savings and loan association in the state offering this rate.

The move was made to keep pace with the growth of the Glades area and to promote the building and construction industry which the area has spawned.

"Due to geographical location," Poston pointed out, "we find it necessary to offer higher dividends on savings in order to attract funds to promote growth in the Glades area. We have always consistently paid one of the highest dividends of any association in the state."

The forward look in the needs of the Glades community, which this association has been a key note in its development over its more than 25 years of service to the Glades.

Everglades Federal has grown from its 1934 assets of \$2,500 (\$10,000 at end of first year) to a complex institution of \$13,000,000 worth of assets this year.

Growth Perseivable

Poston said that by keeping income from investments up and expenses low, the highest dividend rate possible consistent with sound business practices was passed on to depositors. Reserves were built beyond the requirements of law.

Long-Range Planning

"A year and a half ago," Poston explained, "we recognized this situation (the general economic picture that exists today) and our directors took the necessary steps to insure that we would be able to meet the competitive money market to attract funds for our continued growth."

With the nation on its current high-price market, he said, the association will continue to plan for the future.

Rogers Will Speak Here

History-Making Scene At Glades Office Building

F. A. (Banzal) Currie (seated) sets out for the first court hearings ever held in Palm Beach County outside the county seat at West Palm Beach. The dream of citizens, and legislators was realized last Thursday when Judge Currie heard the first docket of cases. Seen with him are (l-r) Mrs. Mae Pope, Glades Office Building manager and clerk for the Glades court; Fred Smith, Glades County clerk; and Deputy Sheriff Paul Kocot, bailiff for the proceedings. The Glades court was held in the clubhouse auditorium and tables were arranged the same as the court room at West Palm Beach to carry out the effect.

First Glades Court Was Big Success

Small Claims Court Judge F. A. Currie appeared well pleased with the first session of his court last Thursday at Palm Beach County's Glades Office Building. The 44 cases on the docket were handled between 10 a. m. and 4:15 p. m.

The largest number of cases from any one plaintiff was 13; however, all but three were settled before court. A total of 48 cases were settled out of court.

Both plaintiffs and defendants expressed pleasure at the savings of a trip to West Palm Beach to handle the business.

Next court date will be Nov. 30, and all cases must be filed no later than Nov. 9 to be heard on that court day, according to Mrs. Mae Pope, office manager.

The file of cases represents some six months' filing. Judge Currie termed Thursday's session very satisfactory.

Register Now To Vote

Mrs. Mae Pope, Glades Office Building manager, announced that books would be open for voter registration Nov. 9. Registration is good for county, state and national elections, she said.

There's no waiting to register. Two full-time clerks are on duty at the office.

South Bay PTA Carnival Brings In Around \$2,000

The Halloween Carnival was again this year a huge success, according to Principal H. A. Ouellette. Proceeds of the Carnival grossed over \$2,500 and after expenses are taken out will net around \$2,000. The proceeds are used for school equipment and other needs.

There were plenty of ghosts, bats, pumpkins and other original appropriate and pretty costumes in the parade from pre-school through the 8th grades. Mrs. Ester Walker, chairman of the parade committee and Mrs. Marvin Davis combined their efforts to make this the biggest parade ever staged.

Justy Sullivan and her committee planners worked and served over four-hundred diners. People from the whole area enjoyed the barbecue chicken dinner.

Everett Fisher won the steer raffled off by South Bay Lions Club. Floyd Wilder sold the most tickets on the steer. The prize of an electric skillet was won by Mr. Wilder was turned over to the Dutch Auction, J. C. Bowen won the huge doll that was raffled off by the Garden Club. John Blus, owner of General Electronics Shop in South Bay donated a clock radio for the auction to help swell the fund.

Mr. Ouellette wishes to thank everyone that helped make this carnival a big success.

The parade led by the BGHS Band marched through downtown to the park and were judged by Mrs. Ivan Van Horn, Mrs. Verda Mathewson and Mrs. C. C. Livingston.

Winners in the parade were presented silver dollars as follows in the three categories:

Watch Parking Lights Now

Park lights are good for just what the word says under the control knob on the instrument panel of your automobile - for parking.

A 1959 legislative act outlawed the use of park lights as a substitute for headlights during such times as twilight hours during a rain, fog or when driving in smoke.

Under the law passed for enforcement by the Florida Highway Patrol, the legislature said:

Motorists are required to use the lower beam (dime) at all times during the twilight hours (between dusk and dark and daylight and sunup), and during fog, rain or smoke.

The law also says that a driver must dim his lights when approaching another vehicle, during the normal course of nighttime driving and that this should be done when the cars are 500 feet apart.

After the business meeting a fellowship period and refreshments were enjoyed by Mrs. Francis Cross, Mrs. Jack Little, Mr. V. L. Jones, Mrs. Charles Cox, Mrs. Eddie Schoepel.

A New Key to Bible Knowledge

At a time when church membership in America is higher than ever before in our history, and Bible reading is at an all-time peak, a publishing event of world-wide significance has taken place. It is the long-awaited publication of the first Concise Reference edition of the Revised Standard Version of the Holy Bible.

This Bible, the culmination of years of work by leading theologians and scholars, has become available to the general public on the seventh anniversary of the text edition of the Revised Standard Version in 1952.

Published by Thomas Nelson & Sons, Inc., the new edition includes a new preface, a new introduction, a new list of proper names, a new list of proper nouns, and a new list of proper adjectives.

Known officially as the Revised Standard Version Concise Reference Bible, the complete text of the RSV Bible was issued seven years ago, it caused a publishing sensation, selling out its first million copies in a matter of days. Although it marked no change in Christian doctrine, it was hailed by scholars and critics everywhere as a work of long overdue.

It clarified language and corrected mis-information and ambiguities arising from faulty scholarship of the past. The new translation made minute use of the most modern archaeological discoveries and studies, including the Dead Sea Scrolls.

The Concise Reference Bible, the latest and most important of the RSV Bible series, takes the reader where he may find the Bible. It is a new key to the Bible, a new key to the meaning of a particular verse. Others complete a thought, or even a whole paragraph, as close as possible to the verse to which they relate, the references enable Bible reading for everyone.

With the Concise Reference Bible, the back of the book, the new RSV, rest in easy-to-read type, makes for a ideal individual and family reading — a true, makes for a gift at Christmas or any time.

Woman's Club Sponsors Kindergarten For 11 Years

KINDERGARTEN PUPILS are shown following Halloween Party Friday morning in their new Educational Building at St. John the Apostle Episcopal Church. Back row, Karen Carpenter, Mary Dell Ashley, Emily Braddock, Mike Sheehan, St. John the Apostle Episcopal Church, by back row, Karen Carpenter, Mary Dell Ashley, Emily Braddock, Mike Sheehan, Melissa Halarok, Sharon Moore, Sharon Pardon, Alice Lamb, Tina Swain, Penny Waters, Hope Gettys, Elaine Causeau, Betty Crissman, Denise Grant, Cindy Roth, Jerry Kirkman, Jeanie Iles, Linda Hendrix, Debbie Rypal, Frank Brad Rhodes, Buddy Baid, Jimmy Sconyers, Harley Mole, Steve Gilliam, Thomas Brooks, Pat Barney, Don Scruggs, Joe Wright, Bryan Cross, George Archer, Kevin Wells, Bruce Wells, (Present but not taken by photographer were Robert Braddock, Mardelle Lile, Debbie Hooks, Diane Richmond, Rickie Lee, Eunice Enfinger, Marsha Ellison.) Fr. Robert Huffmann was a guest. Mrs. Howard Lamb, chairman and Mrs. Myrtice Gilman.

The Belle Glade Kindergarten sponsored by the Woman's Club of Belle Glade is in its 11th year. Mrs. Myrtice Gilman continues to be the teacher since its organization, assisted by Mrs. Hagan Powell and Mrs. Jean Casselins. Serving on the Woman's Club committee are Mrs. Howard Lamb, chairman, Mrs. William Tinsdale, treasurer and Mrs. Emmett Roberts party chairman.

This year there are 39 in the group. The kindergarten which was formerly held in the Presbyterian building is now housed in the new educational building of St. John the Apostle Episcopal Church. The building which includes one very large room, two smaller rooms and an outdoor play area is more than adequate for the pupils. The Woman's Club has purchased four new formula top adjustable tables and chairs to seat 12 at each table.

The kindergarten also has a large play area outside of street. The local police Department moved school zone signs to include the Kindergarten as a safety measure. This year, Mrs. Gilman has a most unique and informative report card namely, "Report of Progress," and is large enough to have pictures in color.

For those who are checked to show the parents exactly what to expect of their child. A place for comments is on the card also. Friday morning from 9:30 to 11:30 the children were treated to a Halloween party. They made masks, cats and other favors and played games. Mrs. Roberts then served hot dogs, Grapes, apples and candies. This was their first party this year and was enjoyed by all.

Methodist Church To Show Motion Picture Albert Schweitzer Sunday

The motion picture, Albert Schweitzer, will be shown at the Community Methodist Church on Sunday, November 8 at 7:30 p. m. This is a full length story of the life of the greatest man of this century. It will be shown in color and everybody is welcome to see it. Church is happy to bring this picture to Belle Glade in order that this community may have the opportunity to see the life and work of this man who through losing his life in service to others has found it in the most serene of obedience to God.

Jesus said, "By their fruit you shall know them." This is no less true today than when they were spoken. The fruits of a truly dedicated Christian person cannot be hid. It is really news when such a story becomes an academy award winner in our modern time. Do not miss the opportunity of sharing in this moving story Sunday night, November 8 in the Community Methodist Church at 7:30 p. m.

Baptist Circles Meet

The Ila Darden Circle met at the home of Mrs. W. T. Forsee Tuesday, a. m. Mrs. Forsee presented the program on "World Missions in China, Japan, Russia and Italy." Mrs. Francis Harris accepted the ministry chairmanship and Mrs. T. E. Strickland the community Missions chairmanship. The devotional service was given by H. O. Earwood.

Lutheran Church To Have Floor Covering

"What are the Things for which Christians ought to pray?" This will be the question to which an answer will be offered in the sermon to be delivered at St. Peter's Lutheran Church Sunday, Nov. 8. The preacher will be the Rev. August Koerber. The Lutheran Men's Club under the presidency of Mr. Charles Max has determined to furnish a floor-covering for the sanctuary, on which work will be begun the third week in November. The members have volunteered to furnish the needed skill as well as the labor.

WHEN IS SANTA CLAUS COMING? The thrilled and excited pre-school children asked Mrs. C. W. McDonald (extreme right) park superintendent when this beautiful 15 ft old fashioned cedar tree was planted last week in the Belle Glade Municipal Park as a permanent Community Christmas tree. The tree was brought here from Alabama when it was about 2 ft. high and was donated to the park by Mrs. Arvie Mathis, second right. It will be added to the list of memorial trees donated to the park and markers will be placed on the trees with the names of the donors. The other ladies are Mrs. Ruth Sands, in charge of the pre-schoolers who attend from 9 to 12 and 1:30 to 5 p. m. in a year round program. Mrs. E. W. Broome has just brought her children to the Playground. The tree will be beautifully lighted and decorated during the Christmas season.

Stephen In Germany

Army PFC Samuel M. Stephen, 23 son of Mrs. Susie Stephen, Okemohobee Center, Belle Glade, is a member of the 72d Artillery Group's boxing team in Germany.

A cannoner in Battery B of the group's 35th Artillery in Wertheim, Germany, he entered the Army in July, 1952, completed basic training at Fort Jackson, S. C., and arrived overseas last December.

Stephen is a 1956 graduate of Lake Shore High School.

Itinerant Librarian Now

The East Lake School welcomes to its faculty Miss Annie Pearl Phillips, a graduate of Alabama State College, Montgomery, Ala. Miss Phillips has been from Mobile, Ala.

Presently, she resides at Pakohoke. Miss Phillips is a itinerant librarian for the Glades area with her home assignment at Pakohoke. She will assist the library committee in setting up the library program for the area.

Her work will be mainly with the elementary teachers.

Carver Plays Roosevelt

The undefeated Eagles of Delray play Roosevelt of West Palm Beach Friday in a football tussle that promises to be a big one. The non-conference game will be played at West Palm Beach.

Viking And Hawks Play At Pakohoke

The Lincoln Vikings of West Riviera saw their first payoff of the 1959 season when they scored their first points against Monroe of Cocoa last week while losing 14-6.

Viking back Calvin Moore made the first score with an 18-yard run around end with four minutes left in the game. Cocoa's Willie Wright scored all 14 points for his team. He took a 23-yard pass from Louis Wallace late in the first period then made the extra point. He later ran 75 yards in the second period and again ran the conversion.

Penalties stopped two other Lincoln drives, one on the five and the other on the three-yard line.

Undefeated Carver Shuts Out Bobcats

After a good start in the 1959 season, the Lake Shore Bobcats have lost four of their last five games, two by shut-outs. Their last defeat came Thursday night when Carver of Delray, undefeated and once-tied, tripped the Bobcats 19-0.

Carver got off to an early start when Tippy Jones went 19 yards in the first quarter to cap a scoring drive. The Bobcats held Carver scoreless in two quarters before the hosts notched 12 more points.

Early in the last quarter Colby Colebrook scored from eight yards out. Sonny Chaney connected on a pass to Moses McCray in a play which ate up 30 yards to end the scoring.

Belle Glade now stands 3-4 in season play and 1-2 in conference play.

Carver is 4-0 in Southeast Florida Conference.

The Bobcats play their remaining schedule at home with two of three games on the conference level. Lincoln Academy of Ft. Pierce visits Nov. 6. Lincoln of West Riviera comes here Nov. 13 and Booker of Sarasota winds up the Bobcat year Nov. 25.

Lincoln Loses A Close One Friday

The Lincoln Vikings of West Riviera visit Pakohoke's Hawks tonight in a conference clash of two teams who each scored their first points in the season against their last week's opponents.

Both teams had been held scoreless so far this year, the Hawks twice and the Vikings six times. Something's got to give tonight as Coach Ben McCoy, well-known here for his days at Belle Glade, and Coach Office Davis pit their skills against each other.

Pakohoke Drops Ft. Pierce Game

Pakohoke's East Lake Hawks scored their first touchdown and extra point of the season last week against Ft. Pierce, but they eventually lost 24-7. Pakohoke led the game 7-6 until minutes before the half.

Two costly errors in the third and fourth quarters set up the

other Ft. Pierce scores, according to Coach Office Davis.

TIME TO CHANGE TO AN ELECTRIC RANGE

CLEANER!

Pots and pans stay "white-glove" clean. Kitchen walls and ceiling stay fresh and clean longer.

COOLER!

Electric range surface units send all the heat into the pan, not out and around it. Kitchen stays up to 15 degrees cooler.

SAFER!

As dangerous as an electric light bulb. Does away with pilot lights. Gives priceless peace-of-mind.

AUTOMATIC!

Just turn a dial or push a button. Control heat eliminate pot-watching.

And remember, it's cheaper to go all-electric in your kitchen today than to use a combination of services.

Ram Bees Win 19-0 Over Stuart Team

Belle Glade High School's "B" football team stands one game away from an undefeated season following their 19-0 defeat of the Stuart Tiger B team here Tuesday night.

The Bees are 4-0-2 and face Clewiston on the Tiger field Nov. 10.

The Bees got off to an early start in their scoring spree Tuesday night when Bobby Blackley recovered a fumbling fumble on their own six-yard line. The Bees had punted the four down situations and the punt receiver bubbled the recovery.

George McMillan scored on the next play and Diddy Mills ran the extra point.

Early in the second quarter, with the Stuart team bottled up in their own territory, Diddy Mills ran for another TD on a 20-yard dash. The point try failed.

In the third quarter Johnny Bass slipped a pass to McMillan good for another score. Stuart only made two conversions of Ramling territory to the 40. They played in their own area most of the game.

The Navy first used the Panama Canal on Oct. 2, 1914, when the USS Jupiter crossed the "Big Ditch" from the Pacific to the Atlantic.

Mrs. Watson had been ill for several months. She was a former resident of Belle Glade coming here from Tampa, and was a former member of the Everglades Presbyterian Church. She accompanied her husband, Tom Watson, Jr., to Japan in 1951 as a missionary and later in Korea did kindergarten missionary work in Korea, returning to Ft. Lauderdale in June, 1950 on account of her illness.

Survivors include her husband, Tom Watson, Jr., two daughters, Ann and Gorea, two sons, Tom III and Bobby, all of Ft. Lauderdale; her parents, Dr. and Mrs. Robert G. Nelson, Tampa and a brother, John.

Funeral services were conducted Monday at 10 a. m. at Bethany Presbyterian Church, Ft. Lauderdale. Rev. John I. Fain, Jr., and Rev. H. Lawrence Love officiated.

A brief service was held at Tampa Tuesday a. m. Interment was in Myrtle Hill Cemetery, Tampa.

Among those attending services in Ft. Lauderdale from Belle Glade were Mr. and Mrs. William A. Thibault, Mr. and Mrs. George Dupere, Mr. and Mrs. Carl T. Cone, Mrs. I. L. Price, Mrs. Ed Browning and Mrs. Joan White.

The value of this program is reflected in the number of 4-H girls who benefit from advice and experience given to them by their leaders, according to a National Committee spokesman. Statistics indicate that during the past four years more than 40,000 leaders completed the course and in turn trained more than 190,000 club members. With this kind of help the young 4-H members are able to achieve better results in their clothing projects.

At the present time 46 sales are participating in the clothing leader training program under the direction of the Cooperative Extension Service.

At Tallahassee, has been named business manager replacing Ben Riedsoph, who resigned and moved to Ocala, according to Superintendent D. R. Large at Glades State Prison Farm.

Large also announced the appointment of Charles Duxbury, who replaced Mrs. Riedsoph, as industries accountant. Duxbury, a Lake Worth native, comes from the Railroad business office.

In other appointments, Large said, Dave Bachman will be classification officer, replacing Richard Hassfurter, who has been transferred to Avon Park as assistant superintendent.

Also in the accounting department is Randy Wolford, a recent graduate of University of Florida.

Winnie, who was released from active duty in the Army in August, is a 1951 graduate of Belle Glade High School. He received his B. S. degree in business administration from University of Florida in 1953.

Winnie was commissioned a second lieutenant in 1953 and attended officers school and Rangers school before being assigned to the Third Infantry Division at Ft. Benning, Ga. He was promoted to first lieutenant while at Ft. Benning.

Since July, 1951 he served with the 1st Infantry Group, 29th Infantry in the Panama Canal Zone as platoon leader and company commander.

"By the end of the year," Poston said, "we hope to reactivate loan services. We have been making in excess of 200 to 250 loans per year under a normal pattern."

Since a loan of money for building in the community eventually adds to the overall economy of the area, the institution is making plans to substantially improve conditions for construction of homes.

"It is apparent now that we have a strong demand for home loans, and our primary objective is to help this occur and see that this obligation of ours is carried out," he said.

Glades Institution Everglades Federal was founded by the late C. E. Reddel in 1934 and the original board of directors included Walter Hooker, H. J. Bratley, now President; Emoryus, A. E. Kirkham and H. D. Beck.

The first loan was made in October of their first year in the amount of \$600. In their first five-year period, the organization grew nine times its original size. The second five-year period which ended in 1939 saw a further increase of four and one-half times the 1939 figures.

The institution's assets today are more than 1,125 times greater than their humble beginning. Last year when Everglades Federal marked its 25th year of operation, the Herald said of that accomplishment:

"The success of this institution is a constant reminder to local folks that the ability to recognize opportunity as well as well as the knowhow of what to do about it, it is not an unusual condition and ability of home folks."

After 35, irregularity often becomes a problem. What you need is something that aids nature and helps establish regularity. Such an aid is regularity is the daily use of SERUTAN. Here's medical evidence: A group of men and women took SERUTAN daily after each meal, taken daily, helped establish regularity. So, for real relief from constipation after 35, use SERUTAN powder or granules.

1. Definite action for an additional bridge over Hillsborough Canal.

2. Plans for business expansion.

3. Street improvement and more positive planning about streets.

4. Investigations of municipally-appointed boards from the standpoint of their make up and decisions.

"Somebody has got to do something about all this," Dexter told The Herald. "This has grown beyond the point of small town politics. We must come out of the Dark Ages!"

He went on to say that other merchants, who have not already planned their participation, should join the united front already created.

S&L League Notes August Increase

The 106 Florida Savings and Loan Associations showed a marked increase during August in both savings inflow and mortgage loans closed over that of August, 1958.

According to statistics released by the Florida Savings and Loan League, savings increased by \$1,288,000 during August, 1959, over the same month of 1958. Total savings for August, 1959, were \$15,123,000, reported for August last year.

For the first 8 months of 1959, savings have increased by \$276,766,000 which is \$86,285,000 greater than for the same period last year.

The League Office reported that during August mortgage loans closed totaled \$60,289,000 which is \$15,375,000 above the total reported for August, 1958. Loans closed for the first 8 months of 1959 totaled \$428,778,000 which is \$118,387,000 over that for the same period last year.

During August, 2,475 new dwelling units were financed which brings the total of new homes being financed for the first 8 months of 1959 to 19,535. As of August 31, 1959, the savings and loan associations of Florida had assets of \$2,643,298,000 and total savings of \$2,331,139,000.

The Veteran's Corner

Here are authoritative answers from the Veterans Administration to questions of interest from former servicemen and their families:

Q. Since coming out of the Army I have been working at a drug store and now plan to take a pre-med course under the Korean GI Bill. My boss wants me to go on working for him part time, after I start school. Would the part-time earnings cut down on my GI allowance?

A. No. You may earn any amount at all in your spare time, without having your school allowance reduced. It is not even necessary for veterans in school under the GI Bill to report outside earnings to the VA.

Q. I am twenty-one years old, eligible for training under the War Orphans Education Act but I never finished high school. Would that keep me from taking courses under the War Orphans program?

A. No. Graduation from high school is not a requirement for War Orphans Education Act training. A young man or woman who quits high school may be eligible under the program.

Q. What kind of papers or other credentials do I need to take with me when I go to a lender to apply for a GI loan?

A. You will need only the Certificate of Eligibility which shows you are entitled to apply for a loan. This Certificate of Eligibility may be obtained from any VA regional office.

Q. My World War II GI term insurance is getting pretty expensive for me and I'd like to convert to a permanent plan but do not feel I can afford to convert all at once. Could I convert, say, \$5000-worth now, and the rest later?

A. Yes. As long as you convert at least \$5000-worth, and additional amounts in multiples of \$500, partial conversion of your GI term insurance to permanent insurance is all right with the VA.

(Although this is addressed to Chevrolet owners, we'd be glad to have you read it, no matter what make you now own or plan to buy. It might well be as interesting and significant to you as to the Chevrolet owner.)

TO THE MORE THAN 16 MILLION PEOPLE WHO OWN CHEVROLETS

The first and the latest—the 1959 and the 1960 Chevrolet. The progress represented here is the result of continuing efforts to make your new Chevrolet always more beautiful, more useful and more valuable in every respect.

You belong to the largest family of owners in the automobile world. We hope you're proud of that. It must give you great satisfaction to know that your judgment in choosing Chevrolet has been confirmed by so many other people.

We know that we can hold your preference and your loyalty only by moving our responsibilities to you fully and completely from the day you buy your Chevrolet to the day you trade it in. And so we'd like to talk with you about our responsibilities as we see them, and what we are doing to meet them.

Our first responsibility, we think, is clear: to design and build products that satisfy your needs and your wants to the highest possible degree. To that end, we have done these things for 1960:

Look: the 1960 Chevrolet more economical, roomier, more quiet and comfortable, easier to handle and maneuver. Introduced the compact and revolutionary Corvair. Produced a new line of Chevrolet trucks with unprecedented advances in efficiency, cargo handling, driver comfort and ability to get a job done.

But it isn't enough to design and build the kind of products you want. They must be built right. Solidly. Carefully.

Let us assure you of this: Chevrolet's fine reputation as a solid, well-built, dependable product is being safeguarded by more checks and inspections and tests than ever before.

Along with your Chevrolet dealer, we want you to have available the same most complete service facilities. That is why we conduct training schools for Chevrolet dealer mechanics. Study and recommend in-

proved service equipment and techniques. Maintain the industry's most complete parts warehouse system. Finally, Chevrolet trusts your Chevrolet dealer has any intention of forgetting you after you buy. To help keep you happy with your Chevrolet, we have established a department new to us, and so far as we know, new to the automobile industry. This is the Chevrolet Department of Owner Relations, whose only job is the coordination of Chevrolet and Chevrolet dealer activities so that you enjoy utmost satisfaction during your entire period of ownership. Through this department, and through all the other extraordinary steps we are taking, Chevrolet and your Chevrolet dealer hope to keep you a happy member of the Chevrolet owner family.

Proclamation

WHEREAS, the schools of Florida, open to every child, are the very lifeblood of free government and the cornerstone on which we build for the future; and

WHEREAS, sound education is essential to the continuing progress and development of our state and the prosperity of our people; and

WHEREAS, true faith in education must be shown by work on its behalf in every community;

NOW, THEREFORE, I, Leroy Collins, by virtue of the authority vested in me as Governor of the State of Florida, do hereby proclaim November 8-14, 1959 as AMERICAN EDUCATION WEEK in Florida, and do urge all citizens and organizations to assist the schools with the achievements and problems of the own schools, and encourage their neighbors to do likewise, toward the end that the schools will receive the support and cooperation they require.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Florida to be affixed at Tallahassee, the Capital, this 2nd day of October, A. D. 1959.

to its close and this season will be the longest grinding season in the company's history. It began October 19 and will continue through May 25.

The U. S. Government has subsidized Cuba, taking her sugar at a premium price and protecting her market against competition and in return the new Cuban regime ignores the many years of American aid and cooperation by selling large quantities of Cuban sugar to the Russian government at a price below the actual cost of production and away from the world market price for sugar. In consequence, Russia is able to purchase sugar from Cuba and turn around and sell it on the world market making a profit of over a million dollars, a large part of it coming out of the pockets of American taxpayers.

American sugar producers are still being squeezed by the American sugar in competition with Cuba and are limited by the pockets of American taxpayers with large quantities of raw sugar for which they must provide costly storage and common sense demands that with the breakdown of the Cuban sugar industry and the inability of other offshore areas to meet their allowed quotas, that American producers be permitted to sell their sugar and expand operations.

The Clewiston Inn which has earned the reputation of being the most popular small hotel in the South, is renovating the Old South wing. Rooms are being enlarged to provide suites and completely refurbished. I always enjoy a visit to the Inn because of its homelike atmosphere and splendid facilities. You will find no better food anywhere than that provided in the Inn.

The town of Clewiston continues to show steady growth with new homes and business structures in evidence. Big Johnson still operates his famed fishing camp and fishing has been good this summer inspite of the rains.

While the Lake Okeechobee area has been completely renovated and put in tip-top shape, new steam turbines have been installed, replacing the old type which were inefficient and inefficient of the plant.

The huge mill operates on a round the clock 24 hour basis from the opening of the season to the closing of the season.

Each year the number of visitors to the Sugar House increases and it has become an outstanding tourist attraction. Tours are conducted throughout the grinding season with guides to take parties through the mill and explain its operation.

No charge is made and visitors are always welcome. Next time you are in this section of the state be sure to take time for a tour of the mill. You will find it an interesting and enjoyable experience.

Editorials

Don't Call The Law Just Yet

"The county commission this week decided to go straight to the FBI to get help for juvenile delinquency problems."

This could quite easily be a good case of shutting the barn door after the horse got out. Our juvenile facilities in the county continue to ask for changes in detention facilities—larger that before that the county was faced with the problem of where to keep errant juveniles before they were taken to our state's security homes for juveniles.

Our county's Parent-Teacher organization worked over a year preparing a report on juvenile delinquency in order to determine what course to follow in the elimination of juvenile delinquency.

Let's stop kidding ourselves. At the rate the money is being spent on this, someone is apt to call us the federal government before long! Let's allow these institutions, organizations and groups to go on studying the problem, who knows? They may find something somewhere.

Meanwhile, let's face a fact or two. When the woodshed and the razor strap disappeared from our social development, society lost its most valuable weapons against juvenile delinquency. Few youngsters ever had the ability to sit down and brood over what devilment they'd get into next when faced with the problem of a wretched backside.

Call in the FBI, the 101st Airborne Division and the French Foreign Legion, for all we care, but let's not let the parents forget that discipline of the mind and body begins at home and in the culture developed along proper lines through church, school and community life.

Let's give our youngsters the help and encouragement they need at home too grow into mature, law-abiding adults by throwing up our hands and calling the law. A pat on the back, we always heard, is a good thing.

Sometimes the pat must be administered considerably longer than the normal angle.

Do Cars Make The Difference?

As a footnote to last week's article about the increase of automobiles used by school children and the connection between driving and lower grades, the following information is furnished.

A Resburg, Idaho high school was surveyed to determine what sort of grades their auto-driving students received. These results would tend to show that driving had influenced their marks.

First, the study showed that no driver made "A" in the grade department. Fifteen percent of the B grades were made by the drivers, 41% of the C grades and 71 percent of the D grades. The most alarming percentage was the failing grade in which it was discovered that 83% of the failing marks were made by those students who drove cars.

Can you see what were driving at?

Uncle Dan From Democrat River Says

Dear Mister Editor:

I come by Clem Webster's house this morning and he was getting out in the front yard counting the shingles on the roof, said he was trying to get his nerves settled after reading the papers.

I give him all the encouragement I could, Mister Editor. He told him I've seen some cars coming from hitchhiking posts to parking meters, can-recollect way back when a fellow driver was in jail and Jimmy Hoffa didn't have a union to his name and I still got faith in Americanism, "Gee, here!" I told Clem we got the only country on earth where a rich man's got his Cadillac and a poor man's got his Cadillac and where a couple can get wed on their unemployment pay and hold the marriage together with a crook book and a can opener, where the air is still free—if you don't try to condition it—and where a fellow running after a woman can have a head-on collision if he ain't careful. I think I felt Clem feeling a heap better.

We do a heap of complaining Mister Editor, but actually I think the world is getting a little better all the time. For instance, we used to depend on fire and the wheel for fire existence and now we got pills and the soil bank. And my old lady used to stand and talk on that wall telephone till her legs give out and now she can set down and talk all day. And it was only last week where I saw that wimmen was taking up one-third less space since the discovery of elastic. Now if they would just imagine they was squeezing into a girdle when they was parking the car, we'd bring the national parking problem solved. I tried to point out

THESE CHIC FASHIONS FEATURES were modeled and made by the girls themselves at the open house given by Future Homemakers, 1-17 are Linda Wilder, Eileen Lindrose and Joyce Kirkman.

The Future Homemakers of America were hostesses at an open house for their parents on their regular meeting date, October 26, at 7:30 p. m. The meeting was held in the cafeteria and was presided over by the president, Phyllis Buss. Mrs. Hazel Litchfield, sponsor, told the guests some of the goals of the Future Homemakers. She also reported that Sears and Roebuck had presented the Home Ec. Dept. a film entitled "Dress for Every Occasion."

A fashion show was enjoyed by the guests. The models were: Martha Harris, Janet Ludlow, Sherry Dupont, Barbara Stone, Sandra Draa, Frankie Ball, Marilyn Matthews, Sidney Pearce, and Mike Berryhill.

On November 7, approximately 60 girls will go to the district F. H. A. Convention. Helen Hart and Martha Harris will run for district officers.

The meeting was followed by a tour of the Home Ec. Dept. and refreshments served by Peggy Carlton, Janet Winterrowd, and Gloria Smith. Mike Berryhill, and Mr. Luther Jones.

Keep Dogs Healthy Avoid Exposure Of Larger Animals

A healthy dog on the farm may be an asset, but one that is sick can be a menace to the farm family and livestock, warns Dr. Harry Stoliker, supervisor of the animal department at the University of Florida, J. Hillis Miller Health Center.

Many diseases can be passed to the family by the dog. Diseases include leptospirosis, rabies, ringworm, salmonellosis, hookworms, roundworms, tape worms, mange and other not common to this part of the country.

Dogs can also transmit diseases to livestock, including rabies, salmonellosis, ringworm and tapeworm. An unhealthy dog can be a storehouse of various bacteria which may or may not be infectious to man and animals.

Some diseases and conditions may weaken a dog, making it easy prey for other infections. Some of these are canine distemper, hepatitis, heart worms, lungworm, roundworms, ticks, fleas and fungus infections.

Dr. Stoliker points out several important preventive steps to keep the dog in proper health. First and most important, a good diet is necessary. Next, see that the dog has a clean place to sleep, protected from mosquitoes which carry heart worms.

Fleas, lice, mange and most fungus infections can be controlled if caught early and properly treated. It is wise to consult a veterinarian, as some treatment materials are toxic.

Distemper, hepatitis, leptospirosis and rabies can be controlled by vaccination at the proper time. Distemper and hepatitis shots may be given at three months, rabies shots at six months. Dogs should be vaccinated yearly for leptospirosis.

Dr. Stoliker warns that all worm medicines may be harmful if given in excess. Different types of worms require different kinds of medicine, so it is wise to consult a veterinarian.
